Research shows that managing workflow and tracking productivity are topmost challenges for most businesses. Unauthorised overtime, buddy-punching and tedious Attendance tracking can eat into your business resources - both time & money.

Read on to understand how our advanced Biometric based solutions can solve some of these issues for you.

- 👉 One of the most compelling reasons to implement Abile Time Management System(ATMS) is because it pays for itself over time.
- 👉 Let's take a look at the return on Investment that can be expected for a typical installation.
- 👉 If you have staff or employee more than 10 People working on multiple shifts, your business can benefit significantly by switching over to a biometric ATMS. Why?
  - It eliminates the need for manual reconciliation of man hours/attendance & leave management.
  - It eliminates erroneous reporting of over-time hours.
  - It prevents buddy-punching or other errors in manpower tracking
- 👉 Our research and client feedback show that the above points ensure **significant cost-savings** from Biometric ATMS. How significant? The savings would typically ensure **recovery of installation & related costs within six months.**
